

Synthetic only, fixed seed 20260801, no external data. Series on the Section-4 observing pattern (one night, 5.2 h, 80 points), analysed through the production LC entry points (run_period_analysis: PDM + astropy Lomb-Scargle; sysrem).
 (a,b): $P = 0.06\text{--}0.2$ d $\times$ noise 5-40 mmag $\times$ 12 realizations = 288 series; (c): 60 stars $\times$ 120 frames, one injected variable ($P = 0.104092$ d, amplitude 0.21 mag).
